

JATIN CHHABRA

+91-8287997180 | jatin.chhabra22jc@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Data Science/Data Analyst with hands-on experience in end-to-end analytics projects and internships, applying data-driven techniques on sales and operational datasets to build meaningful solutions. Skilled in Python, SQL, and Excel, with strong exposure to machine learning techniques including regression, classification, and handling imbalanced data using SMOTE. Experienced in data preprocessing, feature engineering, and model evaluation, along with basic understanding of deep learning and NLP concepts. Familiar with data visualization and Power BI, with a focus on solving real-world problems using data science and analytical approaches.

Technical Skills

Programming & Analysis: Python (Pandas, NumPy, Scikit-learn), SQL (PostgreSQL, MySQL)

Data Science & Machine Learning: EDA, Data Preprocessing, Feature Engineering, Supervised & Unsupervised Learning (Regression, Classification, Clustering), Model Evaluation (Accuracy, Precision, Recall, F1), Handling Imbalanced Data/Smote

Deep Learning & NLP: Neural Networks, TensorFlow, Keras, NLP (NLTK, text preprocessing, tokenization, vectorization)

Business Intelligence & Visualization: Power BI, Tableau, Data Visualization, KPI Reporting

Tools & Platforms: Advanced Excel, GitHub, Jupyter Notebook, DBeaver, Docker, MS Office, Microsoft Azure, Snowflake

Certifications: Complete Data Science, Machine Learning, DL & NLP Bootcamp – [Udemy](#) | Complete Data Analyst Bootcamp – [Udemy](#) | The Ultimate Job-Ready Data Science Course – Code with Harry

Work Experience

Business Analyst Intern – mFilterit (On-Site)

Jan 2026 - Present

- Analysed **large-scale datasets** to identify **trends, patterns, and insights**, enabling data-driven business decisions
- Built & maintained **interactive dashboards** and reports using Power BI, Excel to monitor key metrics and performance
- Designed and implemented **Python-based automation** for recurring data tasks and reports, optimizing efficiency and minimizing manual work
- Collaborated with cross-functional teams to translate business requirements into **analytical and data-driven models**
- Contributed to **Machine Learning workflows**, including data preprocessing, feature engineering, and model evaluation

Data Analyst Intern – Finn Fintech (Hybrid)

Sep 2025 – Nov 2025

- Analysed **sales datasets** to identify month-on-month revenue trends and performance drivers.
- Performed **Exploratory data analysis** on sales data to highlight factors impacting overall business performance.
- Developed **sales tracking** metrics and **dashboards** to support monthly performance reviews and internal reporting.

Frontend Developer Intern – Sage Media (On-Site)

Jun 2025 – July 2025

- Worked on building and updating **responsive webpages** as part of the development team.
- Helped **implement UI changes** and fixes based on **design and feedback**.

Projects

AI Pharma Decision System | Machine learning, NLP, Deep Learning, Python | [Github](#)

- Built an end-to-end **AI Pharma Decision Intelligence Platform** integrating **NLP, Machine Learning** (XGBoost), and **Deep Learning** (LSTM) to analyze drug reviews, predict effectiveness, and forecast demand.
- Developed a **multi-module system** including sentiment analysis, side-effect extraction, demand prediction, and clinical trial success prediction using structured + unstructured data.
- Deployed an interactive **Streamlit dashboard** enabling real-time insights, decision support, and data-driven recommendations for drug performance and risk assessment.

Swiggy Food Delivery Analytics | Python, SQL (PostgreSQL), Power BI | [Github](#)

- Developed a **Food-Tech analytics solution** analysing restaurant performance, pricing behaviour, and delivery operations across multiple cities using SQL and Power BI, **generating actionable insights** on delivery speed, ratings, and high-potential restaurants to support operational **optimization and strategic decisions**.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering (Data Science)

2023 – 2027

Bhagwan Parshuram Institute of Technology, Rohini, Delhi - 110089

CGPA : 9.13
