Summary

Data Analyst / Data Science fresher with hands-on experience in end-to-end analytics projects and internships, working with sales and operational data to generate business insights. Skilled in Python (EDA), SQL, Power BI, and Excel, with exposure to basic machine learning techniques such as regression, classification, and handling imbalanced data using SMOTE. Familiar with data visualization, KPI reporting, and cloud/data platforms including Azure and Snowflake. Actively seeking a Data Analyst / Data Science internship to apply analytical and modeling skills to real-world business problems.

Technical Skills

Programming & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (Joins, CTEs, Aggregations)

Business Intelligence: Power BI (DAX, Interactive Dashboards), Tableau

Data Analysis: EDA, Feature Engineering, Business Insights, Descriptive Statistics, KPI Definition, Data visualization

Tools & Platforms: Advanced MS Excel (Pivot Tables, VLOOKUP/XLOOKUP), GitHub, Jupyter Notebook, MS Office

Machine Learning (Basics): Worked with regression and classification models and handled class imbalance using SMOTE.

Model Evaluation: Evaluated models using metrics such as Accuracy, Precision, Recall, F1-Score, and Confusion Matrix.

Cloud & Data Platforms: Microsoft Azure, Snowflake

Certificates: Complete Data Analyst Bootcamp from Basics to Advanced – [Udemy](#), The ultimate Job ready Data science course (code with Harry)

Work Experience

Business Analyst Intern – mFilterit (On-Site)

Jan 2026 - Present

- Analysed **digital advertising and fraud-detection datasets** for multiple client campaigns using **SQL, Excel, and Power BI**, identifying suspicious patterns, invalid traffic, and fraud percentages to support data-driven decisions
- Developed **interactive dashboards and performance reports** highlighting fraud trends, campaign effectiveness, and key risk indicators, enabling stakeholders to monitor and optimize ad spend and operational strategies.

Data Analyst Intern – Finn Fintech (Hybrid)

Sep 2025 – Nov 2025

- Analysed sales datasets** to identify month-on-month revenue trends and performance drivers.
- Performed **Exploratory data analysis** on sales data to highlight factors impacting overall business performance.
- Developed **sales tracking metrics and dashboards** to support monthly performance reviews and internal reporting.

Frontend Developer Intern – Sage Media (On-Site)

Jun 2025 – July 2025

- Worked on building and updating responsive webpages as part of the development team.
- Helped implement UI changes and fixes based on design and feedback.

Projects

OrderFlow: End-to-End E-Commerce Sales & Operations Analytics | Python, SQL (PostgreSQL), Power BI

- GitHub : <https://github.com/Jatinchhabra22/OrderFlow-End-to-End-E-Commerce-Sales-Operations-Analytics>
- Built an end-to-end analytics project on **100K+ e-commerce records**, performing data cleaning, EDA, feature engineering, SQL analysis, and developing interactive Power BI dashboards.
- Designed executive-level **KPIs and business insights** to identify revenue drivers, pricing segments, and operational bottlenecks for data-driven decision-making.

Swiggy Food Delivery Analytics | Python, SQL (PostgreSQL), Power BI

- GitHub : <https://github.com/Jatinchhabra22/Swiggy-Food-Delivery-Analytics>
- Developed a FoodTech analytics solution analyzing **restaurant performance, pricing behavior, and delivery operations** across multiple cities using SQL and Power BI dashboards.
- Generated **actionable insights** on delivery speed, ratings, and high-potential restaurants to support operational optimization and strategic decisions.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering (Data Science)

2023 – 2027

Bhagwan Parshuram Institute of Technology, Rohini, Delhi - 110089

CGPA : 9.13
